## THEFT PROTECTION

*When it comes to theft, we help your car play hard to get.*

### Look at the Facts

- In the U.S., a car is stolen every 44 seconds, and less than 60 percent of stolen cars without a security system are ever recovered.
- Once inside the “chop shop,” a car can be stripped and the parts moved out in less than two hours.
- When stolen cars are recovered, they’ve usually been stripped of parts, vandalized, wrecked, flooded or burned.
- Only a very small percentage of car thefts are ever cleared by arrest if the car does not have a vehicle security system.

Though there’s no guarantee your car won’t be a thief’s next victim, there are some things you can do to improve your odds without spending a fortune. The more security you have, the less appealing your car will be to a thief. While not foolproof, EFG’s Signature Security Theft Protection can stop the amateur thief and slow down the professional. These security measures may also lower your insurance premiums.
